

Installation instructions

Accessories

Grille * 1

Plastic board * 2

Sealing strip * 1

Small screw * 8

Clip * 8

1: Assemble grille. (Install the plastic board on the grille)

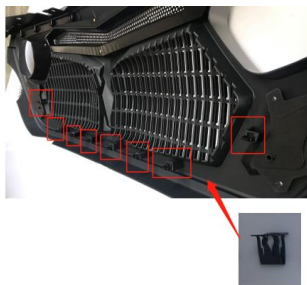

Use 8 small screws to install the plastic board on the top of the grille

Pay attention to distinguish the left and right plastic board

2: Installing the clips

Install the clip to the corresponding position of the grille

It is recommended to use the clip removed from the original grille to make installation easier.

3: Remove the original grille

1: Remove the 6 top clips in the original grille (Figure 1)

(Keep these 6 clips, you will need them when installing the new grille)

2: Pull out the grille

Note: There are 2 clips next to the left and right headlights that are not easy to pull out, you need to pry it with the help of a tool (Figure 2)

3: Remove the foam pad, When installing the new grille, you need to install it back (Figure 3)

4: Install the armpr grille

1: Push the grille to the proper buckle position (figure 1)

2: Install 6 top clips (use the 6 clips removed from the original grille) (figure 2)

3: Install the foam pad (use the foam pad removed from the original car) (figure 3)

4: Attach the sealing strip (Figure 4)

5: Finally check whether all the clips are in place.

5: Effect display after installation
